Health & Safety – Summer Safety Tips:

With summer quickly approaching, we are all spending more time outside. Here are six (6) child safety tips:

1. Small children can drown in as little of 2 inches of water, however older children are at risk as well. Closely supervise children around water and wear life jackets as appropriate.
2. Drink enough water and watch for heat exhaustion. Signs may include: dizziness/fainting, fever, cool skin, goose bumps, muscle cramps, or irritability.
3. Car Safety: the inside of a car can heat up quickly. Make sure cars are locked to keep playing children out. Check temperatures of door handles, seats, etc.
4. Skin protection: wear sun screen and reapply every hour. Sit in shaded areas and wear hats and sun protective clothing.
5. Bike safety: wear a helmet whenever riding a bike, tricycle, scooter, roller blades, etc. to protect the head from hitting the ground should a fall occur.
