Transition can be an exciting (and sometimes stressful) time for planning for the future. We offer the following questions for your family to discuss, as well as tips and parent recommended resources to get you started. This document is available online with clickable links at p2p-co.org.

### Question: What will your teen’s life look like as an adult?

**Tip:** Participate in a person-centered planning process, such as PATHs to PossAbilities, attend a class through the PEAK Parent Center, or call the Arc of Colorado at (303) 864-9334 to begin to research the possibilities.

**Tip:** At age 14, check with your Community Centered Board to see if your teen is eligible for adult services.

- CDE’s Transition Resources and Transition Toolkit include guidance on forming a comprehensive & individualized transition process
- Chet Quest’s Transition Resource Center from PEAK Parent Center
- Step Up! Into Life After High School video series on Youtube, produced by The Arc
- Transition, Transition Services, Transition Planning from Wrightslaw provides general and legal transition guidance
- Pacer’s National Parent Center on Transition and Employment has a host of handouts and videos
- The National Center for Learning Disabilities offers a comprehensive transition guide and e-course

### Question: Where could your teen be going vocationally? Will s/he need education or training beyond high school?

**Tip:** Begin at age 14 with measureable IEP transition goals such as ‘work experience outside of school hours in at least two worksites.’ Educational programs can extend until a student’s 21st birthday.

**Tip:** Create an Individual Career & Academic Plan (ICAP) in the IEP at age 14.

- Colorado Disabled Students’ Network provides peer support, advocacy, and connection
- Concurrent Enrollment Programs provide free opportunities to attend community college while still in high school
- Inclusive Higher Education & Think College have resources for youth with intellectual/developmental disabilities who want to attend college
- Legal Requirements for Transition Components of the IEP from Wrightslaw

### Question: Have you encouraged your adolescent to make decisions on his/her own and communicate preferences and feelings?

**Tip:** Encourage your child to become a strong self-advocate. Guide and support him/her to make choices, participate in planning or IEP meetings, have conversations with doctors or be involved with family decisions.

- Students and Young Adults from PACER Center has information to help develop self-advocacy skills
- The National Center for Supported Decision Making includes tools, resources, and state-level legislative updates
